Senior Product Designer with 5+ years of experience designing fintech, logistics, and SaaS platforms across web and mobile. Specialized in multi-sided marketplaces, payments, and operational dashboards used by thousands of users. Experienced working with product, engineering, and business teams from concept to launch.

EXPERIENCE

URUK IT Solutions - Islamabad, Pakistan — Senior UI/UX Designer

AUG 2024 - PRESENT

KEY PRODUCTS:

Himolatech — Logistics & Freight Marketplace (Mobile App)

- Designed a two-sided platform connecting customers with truck drivers for cargo and freight bookings.
- Built customer flows for booking, scheduling, vehicle selection, pricing, and in-app communication.
- Designed driver tools for job management, assistant pricing, vehicle types, earnings, and trip scheduling.
- Reduced booking uncertainty and cancellations by clarifying real-time availability, pricing, and communication between customers and drivers in the booking flow.

TAIF Pay — Fintech Wallet (Mobile App)

- Designed a digital wallet enabling users to link cards, make payments, and manage transactions securely.
- Created onboarding, KYC, and compliance flows aligned with financial regulations.
- Improved payment success and user trust by simplifying KYC, validation, and error-handling across critical payment and onboarding flows.

CashPro & CDM — Banking & Operations Platform (Web App)

- Designed a centralized system for managing and monitoring Cash Deposit Machines (CDMs) and ATMs for a national bank.
- Built dashboards for operations, IT, and support teams to track cash levels, transaction failures, and machine status.

- Replaced manual tracking with real-time CDM and ATM monitoring, significantly reducing operational overhead and incident response time for bank teams.

Techlio - Lahore, Pakistan — Senior UI/UX Designer

MARCH 2023 - JUL 2024

KEY PRODUCTS:

SpinLab AI — Sports Analytics Platform (Web App)

- Designed the complete UX and UI for an AI-powered sports-tech platform used by American football athletes and coaches.
- Created dashboards to visualize biomechanics, performance metrics, injury risk, and progress tracking.
- Transformed complex motion-capture and analytics data into clear, actionable insights for athletes and trainers.

ProjectChef — Project Management SaaS (Web App)

- Led the full redesign of a cloud-based project management platform.
- Built user flows for task management, Kanban boards, Gantt charts, calendars, risk tracking, and reporting dashboards.
- Improved usability and collaboration by simplifying complex workflows for multi-team environments.

Touchstone Communications - Islamabad, Pakistan — Graphics & UI/UX Designer
