PROFILE

UI/UX Designer and Front-End Developer with 5+ years of experience designing intuitive, secure, and user-centric web and mobile products for fintech, logistics, enterprise, and AI-driven platforms. Specialized in complex dashboards and data visualization, payment and onboarding flows, and two-sided marketplaces used by thousands of users. I translate complex business processes and data into simple experiences through user research, prototyping, usability testing, and scalable design systems, and my front-end skills help me work closely with engineers, product managers, and stakeholders from discovery to pixel-perfect launch in agile teams.

CORE SKILLS

UX Strategy & Research: User Research, Competitor Analysis, Customer Journey Mapping, Usability Testing, Information Architecture, Interaction Design, User Flows
UI & Design Systems: Wireframes, Interactive Prototypes, High-Fidelity UI, Design Systems, Reusable Components, UI Guidelines, Responsive & Mobile-First Design, Accessibility (WCAG), Typography, Color Theory, Visual Hierarchy
Product Areas: Dashboards & Data Visualization, Payment & Transaction Flows, Onboarding & KYC, Marketplaces, Enterprise & B2B SaaS, AI Analytics Products
Tools: Figma (Components, Variants, Auto Layout, Prototyping), Adobe XD, Photoshop, Illustrator
Front-End & Collaboration: HTML, CSS, JavaScript · Developer Handoff & Design QA · Agile/Scrum · Stakeholder Presentations

EXPERIENCE

URUK IT Solutions — Senior UI/UX Designer · Islamabad, Pakistan
AUG 2024 – PRESENT

- Lead design for fintech, logistics, and banking products across web and mobile, partnering with product managers, engineers, and client stakeholders from discovery through launch.
- Build and maintain reusable components and UI guidelines in Figma for consistent, accessible, responsive experiences, and work with front-end developers through handoff and QA for pixel-perfect implementation.

Himolatech — Logistics & Freight Marketplace — Mobile App

- Designed a two-sided platform connecting customers with truck drivers for cargo and freight bookings, from user flows and wireframes to interactive prototypes and high-fidelity UI.
- Mapped customer and driver journeys to design booking, scheduling, vehicle selection, pricing, and in-app communication flows.
- Designed driver tools for job management, assisted pricing, vehicle types, earnings, and trip scheduling.
- Reduced booking uncertainty and cancellations by clarifying real-time availability, pricing, and communication between customers and drivers in the booking flow.

TAIF Pay — Fintech Wallet — Mobile App

- Designed a secure digital wallet enabling users to link cards, make payments, and manage transactions, with a strong focus on usability and trust.
- Created onboarding, KYC, and compliance flows aligned with financial regulations.
- Improved payment success and user trust by simplifying KYC, validation, and error handling across critical payment and onboarding flows.

CashPro & CDM — Enterprise Banking & Operations Platform — Web App

- Designed a centralized system for a national bank to manage and monitor Cash Deposit Machines (CDMs) and ATMs.
- Built data-heavy dashboards and visualizations for operations, IT, and support teams to track cash levels, transaction failures, and machine status.
- Replaced manual tracking with real-time CDM and ATM monitoring, significantly reducing operational overhead and incident response time.

Techlio — Senior UI/UX Designer · Lahore, Pakistan
MAR 2023 – JUL 2024

SpinLab AI — AI-Powered Sports Analytics Platform — Web App

- Owned the end-to-end UX and UI for an AI and motion-capture platform used by American football athletes and coaches.
- Designed dashboards and data visualizations for biomechanics, performance metrics, injury risk, and progress tracking.
- Turned complex motion-capture and AI analytics data into clear, actionable insights for athletes and trainers.

ProjectChef — Project Management SaaS — Web App

- Led the full redesign of a cloud-based project management platform.
- Designed user flows for task management, Kanban boards, Gantt charts, calendars, risk tracking, and reporting dashboards.
- Improved usability and collaboration by simplifying complex workflows for multi-team environments.

Touchstone Communications — Graphics & UI/UX Designer · Islamabad, Pakistan
OCT 2021 – MAR 2023

- Designed web and mobile interfaces, wireframes, and visual assets for client projects using Figma, Photoshop, and Illustrator.

OBS Technologia — Graphics & UI/UX Designer · Islamabad, Pakistan
DEC 2020 – OCT 2021

- Created UI screens and brand and marketing visuals, building a foundation in typography, color theory, and visual hierarchy.

EDUCATION

BS Computer Science — FAST NUCES, Islamabad · 2016 – 2020
